

# Glass Door Reach-in Refrigerators

**Stainless Steel Interior  
Digitally Controlled Uniform Temperature**

**MSR-23G-1**

**MSR-49G-2**

**MSR-72G-3**

## ≡ FEATURES / BENEFITS ≡

- **DIGITAL TEMPERATURE CONTROL SYSTEM**  
Provides precise and constant temperature. This level of precision allows food products to remain fresh over an extended period of time.
- **HIGH-TECH MONITOR**  
The unit will beep if the door has been opened for more than 5 minutes. The monitor digitally displays the present temperature and current status of the refrigerator. You can easily change the temperature by adjusting the thermostat.
- **EFFICIENT REFRIGERATION SYSTEM**  
Turbo Air's glass door refrigerators are designed with over-sized and balanced (CFC Free R-134A) refrigeration systems. These include efficient evaporators and condensers for faster cooling and greater efficiency.
- **AUTOMATIC EVAPORATOR FAN MOTOR DELAYS**  
Through stopping the evaporator fan when the refrigerator door opens, the circulation of hot, moist air into the refrigerator is prevented. This increases energy efficiency and lengthens the life of the compressor.
- **STAINLESS STEEL CABINET CONSTRUCTION**  
The Turbo Air New Maximum model boasts a stainless steel interior and exterior (top, bottom and sides). It guarantees the utmost in cleanliness and long product life. The New Maximum can add a touch of style to the most refined setting.
- **HIGH-DENSITY POLYURETHANE INSULATION**  
Entire cabinet structure is formed-in-place using high density, CFC free polyurethane insulation.
- **ADJUSTABLE, HEAVY DUTY, PE(POLYETHYLENE) COATED WIRE SHELVES**
- **ERGONOMICALLY DESIGNED DOOR**  
Customers' fatigue fades away with easy grip handles and doors that open effortlessly. Self-closing features make this the ultimate choice in customer convenience.
- **DOUBLE PANE GLASS DOORS WITH HEAT REFLECTING FILM**  
Equipped with unique double pane glass doors with a layer of patented, transparent thermal insulating film applied between the two glass layers. Light weight door construction reduces door maintenance.
- **MAGNETIC DOOR GASKET**  
Magnetic door gaskets are of one piece construction, removable without tools for ease of cleaning and replacement.
- **BOTTOM MOUNT COMPRESSOR UNITS**  
Turbo Air's bottom mount compressor allows easier access for service and extra storage space above. In addition, the lower area provides a cooler and less greasy operating environment which results in reduced compressor running time.
- **REFRIGERATOR HOLDS 34°F ~ 39°F FOR THE BEST IN FOOD PRESERVATION**

- FLUORESCENT INTERIOR LIGHTING
- DOOR LOCKS
- SELF-CONTAINED SYSTEM
- 4" SWIVEL CASTERS
- SOLID AND STURDY GRILLE DESIGN
- LEGS AVAILABLE FOR ALL MODELS (OPTION)
- TRAY RACK AVAILABLE (OPTION)  
All models accept full size door tray racks.
- REMOTE CABINETS AND CONDENSING UNITS AVAILABLE FOR ALL MODELS.
